

SOCIAL PSYCHOLOGICAL PROBLEMS OF PREPARING BOYS FOR FAMILY LIFE*Ikromova Sitora Akbarovna**Asia international university associate professor**Qo'ldoshev Shahzod Navro'z ugli**Asia international university 1st year master's degree*

Abstract: This article provides an in-depth analysis of the challenges of starting a family for university boys and ways to solve them. The article examines factors such as students, financial situation, personal development, stereotypes in society, and family values, and proposes problems and solutions for each aspect. The difficulties of finding a balance between studying and starting a family and the need for students to properly distribute their time are considered.

Key words : financial situation , personal development , in society stereotypes , family value
